SUBJECT INDEX
Volume 110 (JULY-DECEMBER 1996)

Abdomen, cardiopulmonary physiology and pathophysiology as a consequence of laparoscopic surgery, 810
pain and massive intravascular hemolysis in a 47-year-old man, 1352
pulmonary function tests before surgery, 587
thoracoabdominal pattern of breathing in neuromuscular disorders, 454
Abstracts, new format for *CHEST*, new media for ACCP, 1
Academic medicine: See Education
Accidents, risks of home oxygen therapy for cigarette smokers, 1130
ACCP consensus statement: See Consensus statement
ACCP medical personnel services: See College, ACCP medical personnel services
ACCP-SEEK board review question of the month, asthmatic becomes hypotensive on mechanical ventilator support, 1613
man with a prolonged episode of palpitations, 1347
26-year-old man with shortness of breath, fever, and hemoptysis, 833
woman with episodic hemoptysis, 271
Acinic cell carcinoma, tracheal, upper airway obstruction secondary to: use of ND:YAG laser, 1120
Acquired immunodeficiency syndrome: See also HIV infections, assessment of right ventricle function and pulmonary artery circulation by CINE-MRI in patients with, 1243
determining the pathogenetic significance of cytomegalovirus in patients with, 863
effectiveness community-based clinical trial of Respirgard II and Fisoneb nebulizers for *Pneumocystis carinii* prophylaxis with aerosol pentamidine in HIV-infected individuals, 141
hepatic and pulmonary biopsy by mini-thoracotomy and transdiaphragmatic access, 1384
patients, fluconazole vs itraconazole-flucytosine association in the treatment of esophageal candidiasis in: a double-blind, multicenter placebo-controlled study, 1507
-related non-Hodgkin's lymphoma, pulmonary manifestations of, 729
-related non-Hodgkin's lymphoma: useful techniques for diagnosis, 585
safety of IV pentamidine administered in an ambulatory setting, 136
Acute Physiology and Chronic Health Evaluation: See APACHE II, APACHE III
Adenocarcinoma, changing radiographic presentation of bronchogenic carcinoma with reference to cell types, 1474
Adenosine deaminase assay, low cost of, 1375
Adhesion molecules: see Cell adhesion molecules
Adolescence, cigarette smoking habits among schoolchildren, 921
Adrenergic agonists, α-, asthma deaths confounded by substance abuse: an assessment of fatal asthma, 604
Adrenergic agonists, β-, bronchodilator therapy of COPD: a reanalysis suggests new roles and new concerns, 5
comparison of ipratropium and albuterol vs albuterol alone for the treatment of acute asthma, 611
continuous vs intermittent albuterol, at high and low doses, in the treatment of severe acute asthma in adults, 42
effect of inhaled salmeterol on sulfur dioxide-induced bronchoconstriction in asthmatic subjects, 1229
extended therapy with ipratropium is associated with improved lung function in patients with COPD: a retrospective analysis of data from seven clinical trials, 62
inhaled, short-term effects of, on breathlessness and central inspiratory drive in patients with nonreversible COPD, 637
long-acting bronchodilators, is the result of methacholine challenge accurate for assessing the bronchoprotective effects of? 305
metaproterenol responsiveness after methacholine- and histamine-induced bronchoconstriction, 617
treatment of mucociliary dysfunction, 1048
ventilation-perfusion response after fenoterol in hypoxemic patients with stable COPD, 71
Adrenergic agonists, β_2-, association between asthma drugs and severe life-threatening attacks, 1446
determination of post-salbutamol methacholine dose shift, 579
enhancing mucociliary clearance, 876
loss of bronchoprotection with salmeterol, 306
partial, and their impartial assessment, 1131
tolerance to the protective effect of salmeterol on allergen challenge, 1452
Advance directives, changing our expectations, 589
critical analysis: pulling the plug on living wills, 816
patients with amyotrophic lateral sclerosis receiving long-term mechanical ventilation: advance care planning and outcomes, 249
Aerosols: See also Nebulizers, cardiovascular safety of high doses of inhaled fenoterol and albuterol in acute severe asthma, 595
comparison of ipratropium and albuterol vs albuterol alone for the treatment of acute asthma, 611
continuous vs intermittent albuterol, at high and low doses, in the treatment of severe acute asthma in adults, 42
determinants of albuterol delivery to mechanically ventilated infants, vol. 109:1607; erratum, vol. 110:1130
drug delivery in the 90s (inhaled mass), 316
effect of inhaled salmeterol on sulfur dioxide-induced bronchoconstriction in asthmatic subjects, 1229
effectiveness community-based clinical trial of Respirgard II and Fisoneb nebulizers for *Pneumocystis carinii* prophylaxis with pentamidine in HIV-infected individuals, 141
extended therapy with ipratropium is associated with improved lung function in patients with COPD: a retrospective analysis of data from seven clinical trials, 62
intractable hiccups: consider nebulized lidocaine, 1129
medication nebulizer performance: effects of diluent volume, nebulizer flow, and nebulizer brand, 498
1-year comparison of Turbuhaler vs pressurized metered-dose inhaler in asthmatic patients, 53
partial β_2-agonists and their impartial assessment, 1131
treating refractory cough with mepivacaine, 1373
treatment of mucociliary dysfunction, 1048
Africa, respiratory symptoms and peak expiratory flow in survivors of the Nyos disaster, 1278
African-Americans, effect of menthol cigarettes on biochemical markers of smoke exposure among black and white smokers, 1194
healthy elderly, spirometry reference values for, 1416
Age, cigarette smoking habits among schoolchildren, 921
normal oxyhemoglobin saturation during sleep: how low does it go? 1489
periodicity of asthma, emphysema, and chronic bronchitis in a Northwest health maintenance organization, 1458
physiologic factors that determine the health-related quality of life in patients with COPD, 896
Aging, bilateral tuberculous pleural effusions with markedly different characteristics, 849
cohort, bronchiectasis in, 579
importance of diffuse aspiration bronchiolitis caused by chronic occult aspiration in the elderly, 1289
sleep-disordered breathing in healthy persons: fifth and final year follow-up, 654
spirometry reference values for healthy blacks, 1416
video-assisted thoracic surgery in the elderly: a review of 307 cases, 751
AIDS: See Acquired immunodeficiency syndrome
Airflow limitation, physiologic factors that determine the health-related quality of life in patients with COPD, 896
obstruction, role of endogenous nitric oxide in, in smokers, 927
Airway, bronchiolitis in chronic pigeon breeder's disease: morphologic evidence of a spectrum of small airway lesions in hypersensitivity pneumonitis induced by avian antigens, 371
bronchoconstriction due to cold weather in COPD: the roles of direct airway effects and cutaneous reflex mechanisms, 632

cardiopulmonary physiology and pathophysiology as a consequence of laparoscopic surgery, 810
dynamics, acute effects of inhaled and IV cocaine on, 904
dysfunction, upper, myasthenia gravis and, 1127
effects of 12-week administration of dornase alfa in patients with advanced cystic fibrosis lung disease, 889
endogenous nitric oxide in exhaled human breath: a new means of monitoring airway disease activity or another NO-NO? 873
enhancing mucociliary clearance, 876
grain dust and endotoxin inhalation challenges produce similar inflammatory responses in normal subjects, 263
is the result of methacholine challenge accurate for assessing the bronchoprotective effects of long-acting β-adrenergic bronchodilators? 305
management of malignant esophagotracheal fistulas with airway stenting and double stenting, 1155
obstetric complications in pulmonary and critical care medicine, 791
pharyngeal critical pressure: the whys and hows of using nasal continuous positive airway pressure diagnostically, 1077
physiologic factors that determine the health-related quality of life in patients with COPD, 896
smooth muscle, clinical applications of nitric oxide, 506
tracheobronchial constriction in asthmatics induced by isocapnic hyperventilation with dry cold air, 404
treatment of mucociliary dysfunction, 1048
visualization, usefulness of, in the diagnosis of nosocomial pneumonia in ventilated patients, 172
Airway hyperresponsiveness, BAL neutrophilia in asthmatic patients: a by-product of eosinophil recruitment? 1236
is delayed introduction of inhaled corticosteroids harmful in patients with obstructive airways disease (asthma and COPD)? 35
loss of bronchoprotection with salmeterol, 306
metaproterenol responsiveness after methacholine- and histamine-induced bronchoconstriction, 617
to methacholine in subjects with spinal cord injury, 911
Airway obstruction, adjusting FVC for the effect of, 417
cost of treating COPD patients with long-term oxygen therapy in a French population, 411
exercise-induced, characteristics and diagnostic significance of wheezes during, in children with asthma, 624
fiberoptic bronchoscopic cryotherapy in the management of tracheobronchial obstruction, 718
is delayed introduction of inhaled corticosteroids harmful in patients with obstructive airways disease (asthma and COPD)? 35
lung function 12 months following emphysema resection, 1407
malignant, endoscopic treatment of, in 2,008 patients, 1536
pneumothorax *ex vacuo*, 1102
tracheobronchial constriction in asthmatics induced by isocapnic hyperventilation with dry cold air, 404
unusual etiology of cough in a woman with asthma, 852
upper, and co-existent asthma: case reports and review of the literature, 1357
upper, secondary to acinic cell carcinoma of the trachea: use of ND:YAG laser, 1120
Airway resistance, acute effects of inhaled and IV cocaine on airway dynamics, 904
controversies in sleep disorders medicine: pulmonologists respond! 1597
influence of maxillary constriction on nasal resistance and sleep apnea severity in patients with Marfan's syndrome, 1184
predicting eventual success or failure to wean in patients receiving long-term mechanical ventilation, 1018
pressures required to move gas through the native airway in the presence of a fenestrated vs a nonfenestrated tracheostomy tube, 494
Akinesis becoming dyskinesis during dobutamine stress echocardiography: a predictor of poor functional recovery after surgical revascularization, 155
Albuterol, cardiovascular safety of high doses of inhaled fenoterol and, in acute severe asthma, 595
comparison of ipratropium and, vs albuterol alone for the treatment of acute asthma, 611
continuous vs intermittent, at high and low doses, in the treatment of severe acute asthma in adults, 42
determinants of aerosolized delivery to mechanically ventilated infants, vol. 109:1607; erratum, vol. 110:1130
medication nebulizer performance: effects of diluent volume, nebulizer flow, and nebulizer brand, 498
Alcohol, abuse, recurrent left pleural effusion in a 44-year-old woman with a history of, 547
asthma deaths confounded by substance abuse: an assessment of fatal asthma, 604
Alcoholism, severe alkalemia, hyponatremia, and diabetic ketoacidosis, 273
Aldosterone, atrial natriuretic peptide and brain natriuretic peptide in cor pulmonale: hemodynamic and endocrine effects, 1220
Alkalemia, severe, and hyponatremia, and diabetic ketoacidosis in an alcoholic man, 273
Alkalosis, severe alkalemia, hyponatremia, and diabetic ketoacidosis in an alcoholic man, 273
Allergies: See Hypersensitivity
Allergists, asthma: better outcome at lower cost? the role of the expert in the care system, 1589
Alpha$_1$-antitrypsin, Dec supp. pp. 237S-284S
alpha$_1$-proteinase inhibitor (human) shortage, 1624
deficiency deaths in the United States from 1979-1991: an analysis using multiple-cause mortality data, 78
Altitude, high-, urinary leukotriene E_4 levels in pulmonary edema: a possible role for inflammation, 939
urinary leukotriene E_4 levels increase upon exposure to hypobaric hypoxia, 946
Alveoli, chronic mild dyspnea on exertion and diffuse infiltrates in a 37-year-old man, 1099
hemorrhage and pulmonary capillaritis: update on diagnosis and management, 1305
mast cells in bronchiolitis obliterans organizing pneumonia: mast cell hyperplasia and evidence for extracellular release of tryptase, 383
Alveolitis, lymphocytic, *Chlamydia pneumoniae* pneumonia in hospitalized patients: clinical characteristics and diagnostic value of polymerase chain reaction detection in BAL, 351
Ambulatory care, barbarism of managed care, 1
how academic medicine and the VA are being influenced by changes in health-care delivery, 239
patient's self-interpretation of tuberculin skin tests, 1275
setting, safety of IV pentamidine administered in, 136
American Board of Internal Medicine, pulmonary section development influences general medical house officer interests and ABIM certifying examination performance, 533
American College of Chest Physicians: See also ACCP, College, Consensus Conference on Antithrombotic Therapy: indicate specific low molecular weight heparin product and dosage, 866
new format for *CHEST*, new media for ACCP, 1
update on COMPACCS, 307
World Congress, scientific highlights, abstracts of original investigations, Oct supp. pp. 1S-236S
American College of Radiology appropriateness criteria: will they be useful for us? 869
Ammonia, relationship between lactate thresholds and, in heart transplant patients, 693
Amoxicillin, origins of breath nitric oxide in humans, 930
Amphotericin B, new antifungal drugs for pulmonary mycoses, 525
Amyloidosis, primary systemic, complicated by massive thrombosis, 282
Amyotrophic lateral sclerosis, patients with, receiving long-term mechanical ventilation: advance care planning and outcomes, 249
sleep-disordered breathing in, 664
Anaerobic threshold, low efficiency of oxygen utilization during exercise in hyperthyroidism, 1264
relationship between lactate and ammonia thresholds in heart transplant patients, 693
ANCA: See Antineutrophil cytoplasmic autoantibodies
Anesthesia, general, and carbon monoxide, 1374
intrinsic positive end-expiratory pressure during one-lung ventilation for thoracic surgery: the influence of preoperative pulmonary function, 180
local, with thoracoscopic talc poudrage pleurodesis, 1126
pain during arterial puncture, 1443
Aneurysm, atrial septal, plus a patent foramen ovale: a predisposing

factor for paradoxical embolism and refractory hypoxemia during pulmonary embolism, 846
bronchial artery, acute superior vena cava obstruction after rupture of, 1355
calcified cardiac lesion, 1097
embolization of pulmonary catheter-induced pulmonary artery pseudoaneurysms, 1369
Angina, dipyridamole and dobutamine-atropine stress echocardiography in the diagnosis of coronary artery disease: comparison with exercise stress test, analysis of agreement, and impact of antianginal treatment, 1248
Angiography, pulmonary, can (it) be limited to the most suspicious side if the contralateral side appears normal on the ventilation/perfusion lung scan? data from PIOPED, 392
pulmonary embolism among patients with a nearly normal ventilation/perfusion lung scan, 395
Angiotensin, renin-angiotensin system and the "lesser circulation": a role in cor pulmonale? 584
II receptor blockade and effects on pulmonary hemodynamics and hypoxic pulmonary vasoconstriction in humans, 698
Animal investigations, laboratory investigations and: See Laboratory and animal investigations
Anorexigens: See Diet pills
Anoxemia, angiotensin II receptor blockade and effects on pulmonary hemodynamics and hypoxic pulmonary vasoconstriction in humans, 698
arterial hypoxemia during pregnancy caused by pulmonary arteriovenous microfistulas, 1367
atrial septal aneurysm plus a patent foramen ovale: a predisposing factor for paradoxical embolism and refractory hypoxemia during pulmonary embolism, 846
ICU stay after single lung transplantation, 874
nasal-continuous positive airway pressure in the treatment of near-drowning in freshwater, 1122
noninvasive positive-pressure ventilation via face mask during bronchoscopy with BAL in high-risk hypoxemic patients, 724
transtracheal oxygen catheterization with pneumomediastinum and sudden death, 844
ventilation-perfusion response after fenoterol in patients with stable COPD, 71
Anoxia, endothelin-1 does not mediate the endothelium-dependent contractions of small pulmonary arteries in rats, 189
regulation of breathing and perception of dyspnea in healthy pregnant women, 446
renin-angiotensin system and the "lesser circulation": a role in cor pulmonale? 584
urinary leukotriene E_4 levels increase upon exposure to hypobaric hypoxia, 946
Antiarrhythmics, cost-effectiveness in clinical cardiology: II. preventive strategies and arrhythmia therapies, 256
Antibiotics, diagnosis and treatment of ventilator-associated pneumonia—impact on survival: a decision analysis, 1025
necrotizing fasciitis, 219
origins of breath nitric oxide in humans, 930
prospective randomized study of inpatient IV, for community-acquired pneumonia: the optimal duration of therapy, 965
Antibody response: See Immunization
Anticholinergics, extended therapy with ipratropium is associated with improved lung function in patients with COPD: a retrospective analysis of data from seven clinical trials, 62
ventilation-perfusion response after fenoterol in hypoxemic patients with stable COPD, 71
Anticoagulation, atrial fibrillation: problems in management, 1089
characteristics of the thrombi of the lower limbs, as detected by ultrasonic scanning, do not predict pulmonary embolism, 996
late intracapsular hemorrhage in a patient with a breast implant, 304
thromboembolism following cardioversion of "common" atrial flutter: risk factors and limitations of transesophageal echocardiography, 1001
Antifungal drugs, new, for pulmonary mycoses, 525
Anti-inflammatory agents, nonsteroidal, necrotizing fasciitis, 219
urinary leukotriene E_4 levels in high-altitude pulmonary edema: a possible role for inflammation, 939
Antineutrophil cytoplasmic autoantibodies, associated vasculitis, respiratory failure in, 357
sulfasalazine pulmonary toxicity in ulcerative colitis mimicking clinical features of Wegener's granulomatosis, 556
Antioxidants, exhaled ethane and vitamin supplements in active smokers, 159
lung, adaptation of, to cigarette smoking in humans, 916
Antithrombotic therapy, ACCP Consensus Conference on: indicate specific low molecular weight heparin product and dosage, 866
Antitrypsin, alpha$_1$-, Dec supp pp. 237S-284S
deficiency deaths in the United States from 1979-1991: an analysis using multiple-cause mortality data, 78
Anxiety, differential influences on asthma self-management knowledge and self-management behavior in acute severe asthma, 1463
distress and, associated with dyspnea, exercise training decreases: monitoring alone may be as effective as coaching, 1526
patients with acute hyperventilation presenting to an inner-city emergency department, 952
Aorta, chronic dissection presenting as a prolonged febrile disease and arterial embolization, 1111
thoracic, immediate effects of intravenous cocaine on coronary arteries and: a transesophageal echocardiographic study, 147
APACHE III, predicting the duration of mechanical ventilation: importance of disease and patient characteristics, 469
II, comparison of severity of illness scoring systems for critically ill obstetric patients, 1299
II, predicting ICU length of stay following single lung transplantation, 1014
Apnea, chest wall oscillation at 1 Hz reduces spontaneous ventilation in healthy subjects during sleep, 128
Appropriateness criteria: See Practice guidelines
ARDS: See Respiratory distress syndrome, adult
Arginine, clinical applications of nitric oxide, 506
Arousal, sleep apnea syndrome and cerebral hemodynamics, 670
Arrhythmia, relationship of early postoperative dysrhythmias and long-term outcome after resection of non-small cell lung cancer, 437
therapies, cost-effectiveness in clinical cardiology: II.preventive strategies and, 256
transient fall in oxygen intake during exercise in congestive heart failure, 841
Arterial puncture, pain during, 1443
Arteriovenous fistula, arterial hypoxemia during pregnancy caused by pulmonary arteriovenous microfistulas, 1367
Arteriovenous malformation, cerebral, patient with, and multiple metallic pulmonary particles, 1611
Artificial respiration: See Respiration, artificial
Ascorbic acid, adaptation of lung antioxidants to cigarette smoking in humans, 916
exhaled ethane and antioxidant vitamin supplements in active smokers, 159
Aspergilloma, inflammatory diseases of the lung causing false-positive ^{131}iodine whole body scans in the evaluation of papillary thyroid carcinoma: two case reports, 565
Aspergillosis, new antifungal drugs for pulmonary mycoses, 525
Aspergillus fumigatus, sensitivity, 12-year longitudinal study of, in patients with cystic fibrosis, 363
Aspiration, diffuse bronchiolitis, importance of, caused by chronic occult aspiration in the elderly, 1289Z
